About Me

As a dedicated and energetic English teacher with 6+ years of experience in EFL and ESL at all levels and different age groups (10-75yr), I love taking on new professional challenges. I have a background of teaching Business and Corporate English in a one-to-one and group contexts. Throughout my career, I have been constantly innovating and experimenting with course design, teaching methods and approaches, creating my own supplementary materials. As well as loving to see my students' growth and development of their English skills, I extremely enjoy sharing my knowledge with my peers and playing a part in their professional development.

Professional Experience

Zone3000 | English Coach
